Mark Fitzgerald

Extensive experience delivering pre and post planning applications to mode's portfolio of clients.

Mark has seven years' experience in transport planning, delivering a wide variety of transport and development planning initiatives for both private and public sector clients.

Extensive experience in liaising with local highway authorities, both pre and post planning application, alongside providing advice to clients regarding potential or proposed development sites.

Mark deploys strong technical skills including elements such as access design and masterplanning, report writing and traffic assessment software including Junctions (PICADY and ARCADY) and LinSig. Pro-active focused approach, reliable and friendly individual.
