commercial and
employment

Elliott Place

Elliott is in the process of completing a Degree Apprenticeship with Aston University.

He has been working with mode since 2020. His main expertise is producing transport reports including Transport Assessments, Travel Plans and Construction Traffic Management Plans. He also has expertise in data manipulation, junction modelling and design work using programmes such as Junctions 9/10 and AutoCAD.

He is primarily focused on the commercial, employment and residential sectors. Most recently large-scale urban extensions.

Outside of work, Elliott enjoys kayaking, camping (having recently completed the NC500, a road trip around Scotland and dog walking.
